EMPLOYER QUICK START

Hire on Vocation SL in 4 steps

Register, set up your company, post a job and review candidates, all at employers.vocationsl.com

1 Create your account

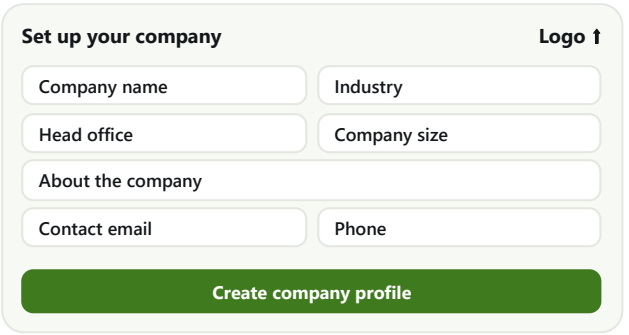

About 2 minutes

1. Go to **employers.vocationsl.com**, or install **Vocation SL** from Google Play, and choose **Hire talent**.
2. Tap **Sign up**, enter your name, email and a password (8+ characters), or use **Continue with Google**.
3. Open the email we send and tap **Confirm my email**. It takes you straight to company setup.

2 Set up your company

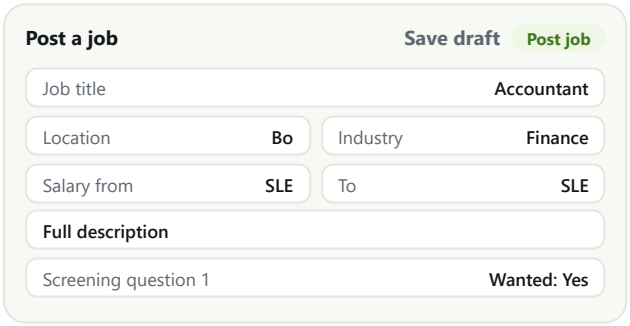

About 5 minutes

1. Add your **company name, industry, head office, about, contact email, phone** and **business address**. A logo and website help job seekers trust you.
2. Have a referral code? Enter it in **Referral code (optional)**.
3. Tap **Create company profile**. Our team then reviews your company.

3 Post a job

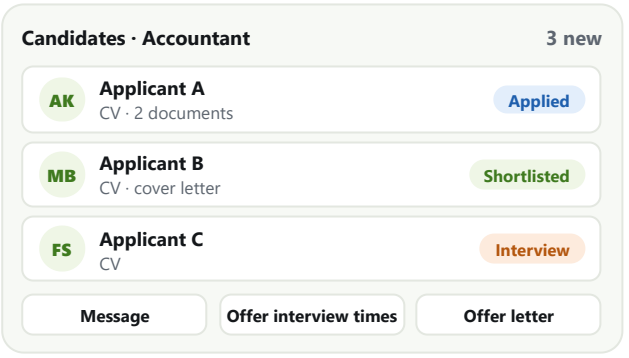

About 5–10 minutes

1. Go to **My jobs** and tap **Post a job**.
2. Fill in the **job title, location, industry, salary, summary, full description** and closing date. Add screening questions or ask for documents if you need them.
3. Tap **Post job**, or **Save draft** to finish later. Until your company is approved, jobs wait for a quick review before going live.

4 Review candidates

As applications arrive

1. Open **Candidates**. A red badge shows how many new applications are waiting.
2. Tap an applicant to read their **CV** and documents, then move them through **Shortlisted** → **Interview** → **Offer** → **Hired**.
3. **Message** them, **Offer interview times** (they pick one and both get a reminder), and send an **Offer letter** PDF.

Company review

Our team checks every new company to keep listings genuine. You'll see the status change in the app once it's approved.

Find talent

Once approved, search job seekers who are open to work, view their profiles and invite them to apply.

Fees

Charges for job listings are agreed with each employer. Where a fee applies, we send an invoice after the listing is approved. Ask us for current rates.

Screens shown are simplified illustrations; the app may look slightly different.
